

Amsterdam (AMS1/4 & AMS2)

Data centres for mission-critical infrastructures

Interxion's AMS1/4 & AMS2 carrier-neutral data centres provide secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions. Located in Gyroscopweg, just ten minutes from Amsterdam central station, the facilities offer 2N UPS power and N+1 cooling, as well as the most advanced alarm and monitoring systems.

AMS1/4 & AMS2 have been designed using Interxion's energy-efficient modular architecture, with 100% green energy and maximum-efficiency components as standard.

Facility

- Over 1500m² of equipped data centre space
- Ten minutes from Amsterdam central station
- Fault-tolerant and concurrently maintainable design

Connectivity

- Dual-entry fibre
- Direct access to a wide range of carriers/ISPs
- Direct access to NL-IX Internet exchange
- SLA-based cross connects available to all customers in the Interxion Amsterdam data centres hub

Gyroscopweg 58/60 & 72
1042 AC Amsterdam

At a Glance

- Conveniently located facilities with over 1,500m² of equipped space
- 3 MVA of 100% green power
- Direct access to a wide range of carriers/ISPs including the NL-IX Internet exchange
- Trained security staff operating 24x7
- Advanced fire detection and suppression systems
- ASHRAE-standard temperature and humidity SLAs

Power

- 3 MVA redundant 100% green power supply
- Up to 99.999% availability SLA
- 2N UPS redundancy
- Backup generators supporting 24 hours at full capacity with 4 hour refuelling response time
- Full range of AC and DC output currents

Security

- Trained security staff operating 24x7
- Multiple physical security layers, including IDS alarms, CCTV, proximity cards and biometrics
- 24x7 controlled access
- ISO 27001-certified information security management systems

Amsterdam (AMS1/4 & AMS2)

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- Argon gas fire suppression system
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Minimum N+1 CRAC redundancy per room
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

Services

- Shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Range of Interxion connectivity, management and backup services
- Extendable to over 20 data centres across Europe via a single service contract
- Office space available

Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards
- Chillers with free cooling

Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.
 ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (Dutch, English, Spanish, German and French)

Contact us

We will be happy to provide you with more detailed information about this and other Interxion facilities along with a range of pricing and SLA options.
