

## Brussels (BRU1)

### An ideal home for your applications infrastructure

Interxion's BRU1 carrier-neutral data centre provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions. The facility is conveniently located close to Brussels city centre and only 10 minutes drive from the airport.

The data centre has N+1 backup generators and cooling and 2N UPS, as well as the most advanced security, alarm and monitoring systems. It supports the latest high-density power configurations, and has been designed using Interxion's energy-efficient modular architecture, with free cooling and maximum-efficiency components as standard.

#### Facility

- 5,000m<sup>2</sup> of equipped space
- Close to Brussels city centre and Brussels South train station; only 10 minutes drive from the airport
- Fault-tolerant and concurrently maintainable design

#### Connectivity

- Redundant fibre entry
- Access to 64 carriers/ISPs
- Direct access to BNIX, the Belgian National Internet Exchange
- SLA-based cross connects available to all Interxion Brussels customers

Wezembeekstraat 2 bus  
1930 Zaventem

#### At a Glance

- Conveniently located facility with 5,000m<sup>2</sup> of equipped space
- 15 MVA redundant grid connection
- Direct access to 64 carriers/ISPs including the BNIX Internet exchange

#### Power

- 15 MVA grid connection looped to main substation
- Up to 99.999% availability SLA
- 2N UPS redundancy
- N+1 backup generators, supporting 24 hours at full capacity with high-speed refuelling SLA
- High-density power configurations
- Full range of AC and DC output currents

#### Security

- Trained security staff on site 24x7
- Multiple physical security layers including CCTV proximity cards and man traps
- 24x7 controlled access
- ISO 27001-certified information security management systems

## Brussels (BRU1)

### Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- Argonite gas fire suppression system
- Minimum N+1 CRAC redundancy per room
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

### Services

- Cabinets, shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Range of Interxion connectivity, management and backup services
- Extendable to over 28 data centres across Europe via a single service contract

### Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Chillers with free cooling
- Operated to the highest energy efficiency standards

### Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (Dutch, French, English, German and Spanish)

### Contact us

We will be happy to provide you with more detailed information about this and other Interxion facilities along with a range of pricing and SLA options.
