

## Dublin (DUB1)

### An ideal home for your ICT infrastructure

Interxion's DUB1 carrier-neutral data centre provides the latest secure and scalable infrastructure for mission-critical IT systems. The facility offers uninterruptible power supplies, diverse data communications connections, environmental controls including climate control and fire suppression, and state-of-the-art security. The data centre is designed, and independently certified to ensure that your IT equipment is guaranteed to be available 24x7.

Located just 8km from Dublin City Centre and connected to the T50, Dublin's Metropolitan Broadband Network, Interxion's DUB1 Data Centre is an ideal home for your ICT infrastructure.
