

Dusseldorf (DUS1)

An ideal home for your applications infrastructure

Interxion's DUS1 carrier-neutral data centre has been the leading data centre in the Dusseldorf area for many years. It provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions. Located in the Connecta Business Park just south of central Dusseldorf, the facility offers up to 2N UPS power and N+1 cooling, as well as the most advanced alarm and monitoring systems. DUS1 supports the latest high-density power configurations and has been designed using Interxion's energy-efficient modular architecture, with free cooling and maximum-efficiency components as standard. Beyond the operational data centre DUS1 also has scope for significant expansion, providing access to an additional 11,000m² of shell-and-core space.

Facility

- More than 2,500m² of equipped data centre space
- 15 minutes drive from Dusseldorf city centre; 30 minutes from the airport
- Fault-tolerant and concurrently maintainable design

Connectivity

- Dual-entry fibre
- Access to more than 40 carriers/ISPs
- Direct access to the ECIX Internet exchange
- SLA-based cross connects available to all other customers in the data centre

In der Steele 29
40599 Dusseldorf

At a Glance

- Conveniently located facility with over 2,500m² of equipped space and space for more
- Trained security staff on site 24x7
- 28 MVA redundant grid connection
- Direct access to more than 40 carriers/ISPs and the ECIX Internet exchange
- ASHRAE-standard temperature and humidity SLAs

Power

- Redundant grid connection
- 28 MVA overall supply-enabling high-density power configurations
- Up to 99.999% availability SLA
- N+1 UPS redundancy upgradeable to 2N on request
- N+1 backup generators with refuelling SLA
- Full range of AC and DC output currents

Security

- Trained security staff on site 24x7
- Multiple physical security layers, including man traps, biometrics, CCTV and proximity cards
- 24x7 controlled access
- ISO 27001-certified information security management systems

Dusseldorf (DUS1)

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- INERGIN® gas fire suppression system
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Minimum N+1 CRAC redundancy per room
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

Services

- Shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Full range of Interxion connectivity, management and backup services
- Extendable to over 20 data centres across Europe via a single service contract
- Customer meeting rooms bookable by the hour
- Dedicated customer office space available

Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards
- Chillers with free cooling

Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

Interxion's ISO 27001-accredited European Customer Service Centre (ECSC) provides coordinated support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (German, English, Spanish, French and Dutch)
