

# Frankfurt (FRA3)

## An ideal home for your applications infrastructure

Interxion's FRA3 carrier-neutral data centre provides secure, scalable infrastructure for mission-critical IT systems. It forms - together with Interxion's other four Frankfurt data centres - Germany's busiest data centre hub, which is also home to the DE-CIX Internet exchange. Located in the east of Frankfurt, just two minutes away from the nearest public transport and 20 km from the airport, the facility offers up to 2N UPS, N+1 generator backup and cooling, as well as advanced alarm and monitoring systems. FRA3 supports the latest high-density power configurations and has been designed using Interxion's energy-efficient modular architecture with free cooling and maximum-efficiency components as standard.

### Facility

- 2,120m<sup>2</sup> of equipped space
- Located in the east of Frankfurt, 20km from Frankfurt Airport and a two-minute walk to the nearest public transport
- Fault-tolerant and concurrently maintainable design

### Connectivity

- Dual-entry fibre and redundant connections between data centres
- Access to over 150 carriers/ISPs
- Connection point for 80% of the members of DE-CIX Internet exchange (core switch hosted on Interxion campus)
- SLA-based cross connects available to all Frankfurt customers

Weismuellerstrasse 21-23  
60314 Frankfurt

### At a Glance

- 2,120m<sup>2</sup> of centrally located equipped space
- 150 carriers/ISPs and DE-CIX Internet exchange on-site
- Trained security staff operating on-site 24x7
- Advanced fire detection and suppression systems
- ISO 27001-certified information security management systems

### Power

- N+1 backup generators, supporting 24 hours at full capacity with high-speed refuelling
- Up to 2N UPS redundancy
- Up to 99.999% availability SLA
- High-density power configurations of up to 30kW per cabinet
- Full range of AC and DC output currents

### Security

- Trained security staff on site 24x7
- Multiple physical security layers, including CCTV, man traps, biometrics
- 24x7 controlled access
- ISO 27001-certified information security management systems

## Frankfurt (FRA3)

### Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- FM-200® fire suppression system
- N+1 CRAC redundancy per room
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

### Services

- Cabinets, shared rooms, cages and private rooms
- Remote hands-and-eyes: 24x7 installation and maintenance
- Range of Interxion connectivity, management and backup services
- Extendable to over 20 data centres across Europe via a single service contract

### Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards
- Chillers with free cooling

### Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (German, English, Spanish, French and Dutch)

### Contact us

We will be happy to provide you with more detailed information about this and other Interxion facilities along with a range of pricing and SLA options.
