

Frankfurt (FRA4)

An ideal home for your applications infrastructure

Interxion's FRA4 carrier-neutral data centre provides secure, scalable infrastructure for mission-critical IT systems. It forms - together with Interxion's other four Frankfurt data centres - Germany's busiest data centre hub, which is also home to the DE-CIX Internet exchange. Located in the east of Frankfurt, just two minutes away from the nearest public transport and 20 km from the airport, the facility offers 2N UPS, N+1 generator backup and cooling, as well as advanced alarm and monitoring systems. FRA4 supports the latest high-density power configurations and has been designed using Interxion's energy-efficient modular architecture with free cooling and maximum-efficiency components as standard.

Facility

- 1,360m² of equipped space
- Located in the east of Frankfurt, 20km from Frankfurt Airport and a two-minute walk to the nearest public transport
- Fault-tolerant and concurrently maintainable design

Connectivity

- Dual-entry fibre and redundant connections between data centres
- Access to over 150 carriers/ISPs
- Connection point for 80% of the members of DE-CIX Internet exchange (core switch hosted on Interxion campus)
- SLA-based cross connects available to all Frankfurt customers

Weismuellerstrasse 19
60314 Frankfurt

At a Glance

- 1,360m² of centrally located equipped space
- 150 carriers/ISPs and DE-CIX Internet exchange on-site
- Trained security staff operating on-site 24x7
- Advanced fire detection and suppression systems
- ISO 27001-certified information security management systems

Power

- N+1 backup generators, supporting 24 hours at full capacity with high-speed refuelling
- 2N UPS redundancy
- 99.999% availability SLA
- High-density power configurations of up to 30kW per cabinet
- Full range of AC and DC output currents

Security

- Trained security staff on site 24x7
- Multiple physical security layers, including CCTV, man traps, biometrics
- 24x7 controlled access
- ISO 27001-certified information security management systems

Frankfurt (FRA4)

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- Inergen® gas fire suppression system
- N+1 CRAC redundancy per room
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

Services

- Cabinets, shared rooms, cages and private rooms
- Remote hands-and-eyes: 24x7 installation and maintenance
- Range of Interxion connectivity, management and backup services
- Extendable to over 20 data centres across Europe via a single service contract

Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards
- Chillers with free cooling

Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (German, English, Spanish, French and Dutch)

Contact us

We will be happy to provide you with more detailed information about this and other Interxion facilities along with a range of pricing and SLA options.
