

# Hilversum (HIL1)

## Data centre for mission-critical infrastructures

Interxion's HIL1 carrier-neutral data centre provides secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions. Located in Hilversum Mediapark, a key centre for Dutch radio & television broadcasting, just 30 minutes' drive from Schiphol International Airport, the facility offers 2N UPS power and N+1 cooling, as well as the most advanced alarm and monitoring systems.

HIL1 supports the latest high-density power configurations and has been designed using Interxion's energy-efficient modular architecture, with maximum-efficiency components as standard.

### Facility

- 830m<sup>2</sup> of equipped data centre space
- 30 minutes from Schiphol International Airport
- Fault-tolerant and concurrently maintainable design

### Connectivity

- Dual-entry fibre
- Direct access to a wide range of carriers/ISPs
- Direct access to NL-IX Internet exchange
- Direct access to the broadcasting industry
- SLA-based cross connects available to all customers in the Interxion Amsterdam data centres hub

Media Gateway, Sumatralaan 45  
1217 GP Hilversum

### At a Glance

- 830m<sup>2</sup> of equipped space
- 4 MVA redundant grid connection
- Direct access to a wide range of carriers/ISPs including the NL-IX Internet exchange
- Advanced fire detection and suppression systems
- ASHRAE-standard temperature and humidity SLAs

### Power

- 4 MVA redundant grid connection, enabling high-density power configurations of up to 10 kW
- Up to 99.999% availability SLA
- 2N UPS redundancy
- Full range of AC and DC output currents

### Security

- Multiple physical security layers, including IDS alarms, CCTV, proximity cards and biometrics
- 24x7 controlled access
- ISO 27001-certified information security management systems

## Hilversum (HIL1)

### Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- Argon gas fire suppression system
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Minimum N+1 CRAC redundancy per room
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, UPS, etc.)

### Services

- Shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Range of Interxion connectivity, management and backup services
- Extendable to over 28 data centres across Europe via a single service contract
- Office space available

### Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards

### Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (Dutch, English, Spanish, French and German)

### Contact us

We will be happy to provide you with more detailed information about this and other Interxion facilities along with a range of pricing and SLA options.
