

London (LON1)

An ideal home for your applications infrastructure

Interxion's LON1 carrier-neutral London data centre provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions. Located in the heart of The City of London, the facility offers 2N UPS power and N+1 cooling, as well as exceptional connectivity choices and the most advanced alarm and monitoring systems. The data centre has been designed using Interxion's energy-efficient modular architecture, with free cooling and maximum-efficiency components as standard.

Facility

- 4,300m² of equipped space
- 7 miles from City Airport
- 25 miles from Heathrow Airport
- Ten-minute walk from Liverpool Street underground public transport links
- Fault-tolerant and concurrently maintainable design

Connectivity

- Dual-entry fibre
- SLA-based cross connects available to all other London customers
- Access to 40 carriers/ISPs and other network providers
- Direct access to LINX London Internet exchange

Hanbury Street
London E1 6QR

At a Glance

- 4,300m² of equipped space in the heart of the City of London
- 13 MVA redundant grid supply
- Direct access to 40 carriers/ISPs and networks including LINX
- Advanced fire detection and suppression systems
- ASHRAE-standard temperature and humidity SLAs

Power

- 13 MVA redundant grid supply
- Up to 99.999% availability SLA
- 2N UPS redundancy
- N+1 backup generators with 24 hours worth of fuel on site plus a 4 hour refuelling SLA
- Full range of AC and DC output currents

Security

- Trained security staff on site 24x7
- Multiple physical security layers including CCTV, proximity cards and man traps
- 24x7 controlled access
- ISO 27001-certified information security management systems

London (LON1)

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- INERGEN® gas fire suppression system
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Minimum N+1 CRAC redundancy per room
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

Services

- Shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Full range of Interxion connectivity, management and backup services
- Extendable to over 28 data centres across Europe via a single service contract

Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards
- Chillers with free cooling
- CRAC Units with pressure-controlled fans ensuring 20-25 PA at all times

Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (English, French, Spanish, German and Dutch)
