

## Paris (PAR1)

### An ideal home for your applications infrastructure

Interxion's PAR1 carrier-neutral data centre provides secure, scalable infrastructure for mission-critical IT systems. Together with Interxion's other Paris data centres it forms France's busiest data centre hub, which is also home to the PaNAP, FreelX, PARIX, SFINX and FranceIX Internet exchanges.

Located 10 km north of the centre of Paris, PAR1 offers N+1 UPS, generator backup and cooling, as well as advanced alarm and monitoring systems. It has been designed using Interxion's energy-efficient modular architecture with high-efficiency components as standard.

#### Facility

- 1,450m<sup>2</sup> of equipped space
- 10 km from Paris city centre; 16 km from Charles de Gaulle Airport
- Excellent public transport links
- Fault-tolerant and concurrently maintainable design

#### Connectivity

- Dual-entry fibre
- Access to over 50 carriers/ISPs
- Access to the PaNAP, FreelX, PARIX, SFINX and FranceIX Internet exchanges
- SLA-based cross connects available to all customers in Interxion Paris data centres hub

45, Avenue Victor Hugo  
Bâtiment 260  
93 534 Aubervilliers Cedex

#### At a Glance

- 1,450m<sup>2</sup> of centrally located equipped space
- Access to more than 50 carriers/ISPs and 4 Internet exchanges
- Trained security staff operating 24x7
- Advanced fire detection and suppression systems
- ISO 27001-certified information security management systems

#### Power

- 2 MVA/15 kV redundant grid supply
- Up to 99.99% availability SLA
- N+1 UPS redundancy
- N+1 backup generators, supporting 72 hours autonomy at full capacity
- Full range of AC and DC output currents

#### Security

- Trained security staff operating 24x7
- Multiple physical security layers, including CCTV, man traps, biometrics
- 24x7 controlled access
- ISO 27001-certified information security management systems

## Paris (PAR1)

### Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- FM-200® fire suppression system
- Minimum N+1 CRAC redundancy per room
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Entire facility infrastructure monitored 24x7 (CRAC, Fire Panels, Generator, UPS, etc.)

### Services

- Cabinets, shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Range of Interxion connectivity, management and backup services
- Extendable to over 28 data centres across Europe via a single service contract
- Customer meeting rooms bookable by the hour
- Dedicated customer office space available

### Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards

### Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (French, English, Spanish, German and Dutch)
