

Paris (PAR4)

An ideal home for your applications infrastructure

Interxion's PAR4 carrier-neutral data centre provides secure, scalable infrastructure for mission-critical IT systems. Together with Interxion's other Paris data centres it forms France's busiest data centre hub, which is also home to the PaNAP, FreeIX, PARIX, SFINX and FranceIX Internet exchanges. Located in Nanterre, nearby the business district of La Défense, PAR4 offers 2N power supply and UPS, with N+1 generator backup and cooling, as well as advanced alarm and monitoring systems. It supports higher density power configurations and has been designed using Interxion's energy-efficient modular architecture with maximum-efficiency components as standard.

Facility

- 1,250m² of equipped space
- 2 km west of La Défense business district on the edge of the A86
- Fault-tolerant and concurrently maintainable design

Connectivity

- Dual-entry fibre
- Access to a wide range of carriers/ISPs
- SLA-based cross connects available to all customers in Interxion Paris data centres hub

21 Rue du Port, Parc de l'Île - Allée Bleue
92 000 Nanterre

At a Glance

- 1,250m² of centrally located equipped space
- Access to a wide range of carriers/ISPs
- Trained security staff operating 24x7
- Advanced fire detection and suppression systems
- ISO 27001-certified information security management systems

Power

- 5 MVA/20 kV redundant grid supply
- Up to 99.999% availability SLA
- 2N UPS redundancy
- N+1 backup generators, supporting 72 hours autonomy at full capacity
- Full range of AC and DC output currents

Security

- Trained security staff operating 24x7
- Multiple physical security layers, including CCTV, man traps, biometrics
- 24x7 controlled access
- ISO 27001-certified information security management systems

Paris (PAR4)

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- FM-200® fire suppression system
- Minimum N+1 CRAC redundancy per room
- Closed circuit chilled water HVAC
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

Services

- Cabinets, shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Range of Interxion connectivity, management and backup services
- Extendable to over 28 data centres across Europe via a single service contract
- Customer meeting rooms bookable by the hour
- Dedicated customer office space available

Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards

Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (French, English, Spanish, German and Dutch)

Contact us

We will be happy to provide you with more detailed information about this and other Interxion facilities along with a range of pricing and SLA options.
