

Paris (PAR5)

An ideal home for your applications infrastructure

Interxion's PAR5 carrier-neutral data centre provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions. Located in Saint Denis, 10 km from the centre of Paris, the facility offers 2N UPS power and N+1 cooling, as well as the most advanced alarm and monitoring systems. PAR5 supports the latest high-density power configurations and has been designed using Interxion's energy-efficient modular architecture, with free cooling and maximum-efficiency components as standard.

Facility

- 4,200m² of newly built data centre space
- 10 km from Paris city centre; 16 km from Charles de Gaulle Airport
- Two-minutes walk from Stade de France public transport links
- Fault-tolerant and concurrently maintainable design

Connectivity

- Dual-entry fibre
- Access to more than 50 carriers/ ISPs
- Direct access to the PaNAP, FreelX, PARIX, SFINX and FranceIX Internet exchanges
- SLA-based cross connects available to all customers in Interxion Paris data centres hub

11-13 Avenue des Arts et Metiers
93200 Saint Denis

At a Glance

- Conveniently located 4,200m² facility
- Trained security staff on site 24x7
- 16 MVA/20 kV redundant grid connection
- Direct access to more than 50 carriers/ISPs and 4 Internet exchanges
- Advanced fire detection and suppression systems
- ASHRAE-standard temperature and humidity SLAs

Power

- 16 MVA/20 kV redundant grid supply, enabling, high-density power configurations
- N+1 backup generators, supporting 72 hours autonomy at full capacity
- Up to 99.999% availability SLA
- 2N UPS redundancy
- Full range of AC and DC output currents

Security

- Trained security staff on site 24x7
- Multiple physical security layers including CCTV, proximity cards and man traps
- 24x7 controlled access
- ISO 27001-certified information security management systems

Paris (PAR5)

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- Argon gas fire suppression system
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Minimum N+1 CRAC redundancy per room
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

Services

- Shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Full range of Interxion connectivity, management and backup services
- Extendable to over 28 data centres across Europe via a single service contract

Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated to the highest energy efficiency standards
- Chillers with free cooling

Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management.

ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (French, English, Spanish, German and Dutch)
