

Zurich (ZUR1)

An ideal home for your applications infrastructure

Interxion's ZUR1 carrier-neutral data centre - the largest of its type in Switzerland - provides secure, scalable infrastructure for mission-critical IT systems.

The facility is located five minutes from the Airport in Zurich Kloten and can be reached from the centre of Zurich within 10 minutes. ZUR1 offers 2N UPS and N+1 cooling and backup power, as well as advanced alarm and monitoring systems. It also supports the latest high-density power configurations and has been designed using Interxion's energy-efficient modular architecture with free cooling and maximum-efficiency components as standard.

In addition, ZUR1 information management systems meet the independent standards of ISO 27001 (Information Security and Business Continuity) and FINMA, the Swiss Financial Market Supervisory Authority.

Facility

- Over 4,500m² of equipped space
- Located next to Zurich Kloten airport (five minutes) and ten minutes from Zurich city centre
- Fault-tolerant and concurrently maintainable design

Connectivity

- Dual-entry fibre
- More than 30 carriers/ ISPs including the SwissIX Internet exchange
- SLA-based cross connects available to all Zurich customers

Sägereistrasse 35
CH-8152 Glattbrugg

At a Glance

- Over 4,500m² of centrally located equipped space
- 10 MVA redundant grid connection
- More than 30 carriers/ISPs and SwissIX exchange
- Trained security staff operating 24x7
- ISO 27001-certified information security management systems

Power

- 10 MVA redundant grid connection
- Up to 99.999% availability SLA
- 2N UPS redundancy
- N+1 backup generators, supporting 72 hours at full capacity with high-speed refuelling
- Full range of AC and DC output currents

Security

- Trained security staff on site 24x7
- Multiple physical security layers, including CCTV, man traps, 24x7 controlled access
- ISO 27001-certified information security management systems

Zurich (ZUR1)

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- Inergen® fire suppression system
- N+1 CRAC redundancy per room
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS, etc.)

Services

- Cabinets, shared rooms, cages and private suites
- Remote hands-and-eyes: 24x7 installation and maintenance
- Connectivity, management, backup services
- Extendable across Europe via one service contract

Energy Efficiency

- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Chillers with free cooling
- Cold cube setup
- Operated to the highest energy efficiency standards

Customer Support

BS 25999 Certification - British Standards Institution (BSI) standard for Business Continuity Management. ISO 27001-accredited European Customer Service Centre (ECSC) provides support in 11 countries to the same rigorous standards:

- 24x7 facility and service monitoring
- Multilingual response (German, English, Spanish, French and Dutch)
